## The Test of Competence

by L. Ron Hubbard

In an age of intricate equipment and high speed machines and vehicles, one's survival and that of one's family and friends depends in no small measure upon the general competence of others.

In the market place, in the sciences, the humanities and in government, incompetence can threaten the lives and future of the few or the many.

I am sure you can think of many examples of this.

Man has always had an impulse to control his fate. Superstition, propitiation of the right gods, ritual dances before the hunt, can all be viewed as efforts, no matter how faint or unavailing, to control destiny.

It was not until he learned to think, to value knowledge and to apply it with competent skill that he began to dominate his environment. The true "gift of heaven" may have been the potential to be competent.

In common pursuits and activities, Man respects skill and ability. These in a hero or athlete are almost worshiped.

The test of true competence is the end result.

To the degree that a man is competent, he survives. To the degree he is incompetent he perishes.

Encourage the attainment of competence in any worthwhile pursuit. Compliment it and reward it whenever you find it.

Demand high performance standards. The test of a society is whether or not you, your family and friends can live in it safely.

The ingredients of competence include observation, study and practice.

### PRACTICE

Learning bears fruit when it is applied. Wisdom, of course, can be pursued for its own sake: there is even a kind of beauty in it. But, truth told, one never really knows if he is wise or not until he sees the results of trying to apply it.

Any activity, skill or profession, ditch digging, law, engineering, cooking or whatever, no matter how well studied, collides at last with the acid test: can one DO it? And that doing required *practice*.

Movie stunt men who don't practice first get hurt. So do housewives.

Safety is not really a popular subject. Because it is usually accompanied by "be careful" and "go slow." People can feel restraints are being put on them. But there is another approach: if one is really practiced, his skill and dexterity is such that he doesn't have to "be careful" or "go slow." Safe high speed of motion becomes possible only with practice.

One's skill and dexterity must be brought up to match the speed of the age one lives in. And that is done with practice.

One can train one's body, one's eyes, one's hands and feet until, with practice, they sort of "get to know." One no longer has to "think" to set up the stove or park the car: one just DOES it. In any activity, quite a bit of what passes for "talent" is really just *practice*.

Without working out each movement one makes to do something and then doing it over and over until one can get it done without even thinking about it and get it done with speed and accuracy, one can set

L. Ron Hubbard supervising communications drills on the Saint Hill Special Briefing Course. Briefing Course Graduates do an internship upon graduating, as do all graduates

of auditor and case supervision courses, thus guaranteeing that they can apply the technology they have learned the way Ron wants it done: 100% standardly.

the stage for accidents.

Statistics tend to bear out that the least practiced have the most accidents.

The same principle applies to crafts and professions which mainly use the mind. The lawyer who has not drilled, drilled, drilled on courtroom procedure may not have learned to shift his mental gears fast enough to counter new turns of a case and loses it. An undrilled new stockbroker could lose a fortune in minutes. A green salesman who has not rehearsed selling can starve for lack of sales. The right answer is to practice, practice and practice!

Theory and data blossom only when applied and applied with practice.

There is a vast difference between "good enough" and professional skill and dexterity. The gap is bridged with practice.

There is considerable joy in skill, dexterity and moving fast: it can only be done safely with practice.

## Really Get the Tech— See the New LRH Tech Films at ASHO!

Excited auditors, students, and internes at ASHO are now seeing the LRH Tech Films—ten have been released so far! These tech films, covering the basics of auditing, TRs, and handling an E-Meter, communicate the tech in such a clear way that misduPLICATIONS and alter-is are eliminated and one sees the way Ron wants it done!

If you're already a graduate of any course that has some or all of the Tech Films on it, you can see the films that apply to that course simply by taking ASHO's Tech Films Update Service! Courses with Tech Films on them are the NED Course, Academy Level Zero and above, the Professional TRs Course, Assessment Drills Course, and the Solo Auditor's Course. On the Tech Films Update Service you may see any of the films you sign up for as many times as you like. And everyone taking the service is eligible for a free ASHO Qual Training Consultation to help take stops off their training.

Ron has made these films so you can see the standard way to do it! Take advantage of this opportunity—one you can't afford to miss—and do the Tech Films Update Service at ASHO now! Just fill out the Letter Registrar's Questionnaire to enroll.

Donations for the Tech Films Update Service are in the donations list for this issue.

**FLASH!** The latest LRH Tech Film to be released—"START, CHANGE, STOP"—has arrived and is being shown now at ASHO!

## Internships at ASHO — Flawless Standard Tech, Flubless Auditing, Excellent Results

ASHO Intern Sandy Baikie takes her happy pc to the examiner after another successful session.

For years ASHO Internship Graduates have been known for their excellent results, and ASHO-trained auditors are in high demand. A look at ASHO's internships shows why.

L. Ron Hubbard established internships to see that course graduates could actually apply the materials of their courses to exact professional standards. Graduation from an internship is required to keep auditing and C/Sing certificates in force. Course certificates are valid for one year after graduation from a course unless an internship for the course is done. When an intern gradu-

ates, their certificate is given a gold seal which makes the certificate permanent.

An internship at ASHO usually takes only a few fast-paced weeks. From the moment he starts his internship, an interne is treated as the valuable professional he is and will become. He gets checked out in Qual on the key materials of his level and then is given his provisional "ok to audit" that level. The interne then does lots of auditing—5, 6, 8, 10 hours a day. Video tapes of an interne's auditing are done daily until the quality of the TRs and auditing is nothing less than 100% standard. If an interne goofs he gets crammed and word cleared and re-drills his materials. Cramming is done under ASHO's Class VIII Cramming Officer—personally trained for the job by LRH.

ASHO's internship lines are smooth and highly professional. Comments on the high degree of ARC at ASHO are common in the Success Stories of ASHO internes! At ASHO there is no lack of pcs of all levels from beginning to OT to audit. The Hubbard Guidance Center is one of the largest in the world and operates on a "get the pc audited" basis so the lines are swift and the service is as famous as the quality of technical delivery. All this makes "auditing long hours" easy for the interne.

When the interne becomes 100% flubless in applying Standard Tech and is doing high hours daily (and of course with his pcs getting excellent results!), he is given a pass by one of ASHO's Class VIII C/Ss!

ASHO also delivers C/S, supervisor and administrative internships under top professional veteran Sea Org C/Ss, supervisors and executives. The same high standards are demanded from internes in these areas as are demanded from interning auditors—and with the same fantastic results!

Here are a few of the success stories from excited ASHO Internship Graduates:

*This was a fantastic action and much needed after 7 years in Scientology. I'm finally a professional auditor. This is what I've wanted to do for a long time—now I can audit PROFESSIONALLY! Thank you Ron and C/Ses!*

—CJ

ASHO's Flag-trained Class VIII Senior Case Supervisor keeps a keen eye on the quality of interne auditing and Case Supervision.

*On completing the internship I feel a solid satisfaction that I know and can apply Ron's tech on anybody anywhere. The individuals who helped on this great road are gems! Nothing but cooperation, theta and ability. I am a product Ron would be proud of, and I was "produced" by people I know Ron's proud of. Thank you, thanks ASHO, and thanks Ron.*

—BH

*This internship magnified and solidified all of the great gains I attained from the course.*

*I feel better than I ever have as an Auditor!*

*My thanks to the great Interne Supervisor and LRH!*

—GM

*Fantastic! I've just completed my Mini Course Supervisor's Course Internship and I'm blown out! It feels so good to be here, getting spot-on standard application of the tech from all the supervisors and getting my purpose line revitalized, ending off with a tone 40 outlook and approach. More important is the application of the tech and having the knowingness that I will assist my students and internes in applying standard tech, and getting the unlimited wins that are available on course and in life with highest ARC. I thank Ron for it all—and the staff at ASHO Day.*

*There are alot of great staff here; their ARC and high tone level is greatly appreciated. I have a true feeling of finally arriving back home.*

—LP

# Internes and Internships vs Courses

by L. Ron Hubbard

The word INTERN or INTERNE means "An advanced graduate or a recent graduate in a professional field who is getting practical experience under the Supervision of an experienced worker".

An Internship then is serving a period as an Interne, or an activity offered by an org by which EXPERIENCE can be gained.

Internships have been arranged this long while for every auditing class.

The apprenticeship of an auditor is done as an org Interne.

C/Ses very often have Internes on their lines and sometimes have trouble with getting them to audit.

The WHY of this is that the Interne seldom knows the definition of the word "Interne" (which is as above). They sometimes think they are still students. They do not know this fact:

A COURSE GRADUATE BECOMES AN AUDITOR BY AUDITING.

That means LOTS of auditing.

The failure of "auditors" is that they go from one level to the next, without ever becoming an auditor for that Class.

Thus you can get a silly situation where a Class IX can't audit or C/S well. Thus you get tech going out.

One takes any graduate and Internes him on the lowest Internship he has missed. He reviews his material, get his drills checked, gets his misunderstood words cleared and gets an "ok to audit" for that level.

When he then has turned out pcs, pcs, pcs, pcs, 5, 6, 8, 10 hours a day for weeks and weeks and is a total success as a Dianetic Auditor, he can go on up.

Then one day he is word cleared, checked out on his drills, and he qualifies for "ok to audit" for IV or VI.

Now it begins all over again. Flubs-Cramming, midnight oil, audit audit cramming audit audit new word clear new drill work audit audit audit audit 5, 6, 8, 10 hours a day.

Now he is a IV or VI auditor.

When he's an Auditor that can do VI, he is ready for VIII and IX.

If he is going to be a good VIII-IX auditor he will Interne in an AO or SH under an experienced C/S.

Now when he goes to his own org, you have a real honest to goodness C/S. And as a C/S he must know how you use Internships to make auditors.

Wherever this function is neglected, you don't get auditors. You get doubtful students and out-tech.

By using this method you get IN tech and high volume. Any auditor in any org that is limping and fumbling simply has never been properly Interned.

The way to remedy it is to set up a good Cramming that uses only HCO Bs and has them available (and no verbal tradition), a Good Word Clearer and a Qual "okay to audit" Interne system. The Internes are a Section in Qual. They have a Course Supervisor. They study and audit cram audit cram study audit, audit audit audit.

And one day you have IN tech and high volume high Class auditing all over the place.

Otherwise you just have a bunch of students, in doubt, chewing on their misunderstood words and failed tech.

There IS a right way to go about it. It is by Internship.

## Internships vs Courses

Courses are those activities done in Div IV, Dept 11 for the purpose of training a student on the theory and materials necessary to perform certain skills. The product of a course is a graduate who has learned his materials and successfully applies what he has learned.

Internships are those activities done in Div V, Dept 14 for the purpose of perfecting the interne's application of the basic skills learned on the Div IV course. The product of the internship is a flubless professional.

## Fast Courses

A well-run course is where the student gets the theory. Through Word Clearing, demos, drills and actual practical application of the materials per his checksheet, the student is quickly gotten to a point where he grasps the simplicity of the fundamentals of the level and can apply them. Then from the viewpoint of experience with the basics he then rapidly studies the rest of the techniques that comprise the level. He can produce a competent result. This is a course graduate.

## Fast Internships

Internships are not where your learn theory. That belongs on the course. Internships are there to add polish to professional level. Internes by definition train "on-the-job" under skilled supervision. They acquire skills by

doing, not by reading their theory again. They audit. They C/S. They supervise. They get their errors corrected and they audit, C/S and supervise some more. When they have done this in volume and polished up their rough edges so they can think with their materials without hesitation on what to do, they become professionals. This is an internship graduate.

# NEWS FROM ARO

## Applying the Tech to the Fourth Dynamic

Interned Class IV Auditor Carrie Alkins runs group processing at a Convalescent Home in her neighborhood.

All over the world Scientologists are reaching out into their environments and are creating, individual by individual and group by group, a better civilization for all. Scientologists in organizations such as Operation Fourth Dynamic, Special Operations (in Latin America) and the American Cultural Association are hammering cracks in barriers of apathy and failure in the society.

Carrie Alkins, ASHO trained and interned Class IV Auditor is one such person. She is Deputy Executive Director of the American Cultural Association on the West Coast. She is actively involved in applying L. Ron Hubbard's technology to the people in her community. "It's painless to spend one hour a month to help with OP4D (Operation Fourth Dynamic) and it's one activity where you get the most unbelievable return for the least amount of effort that I've seen anywhere. If every Scientologist in the Los Angeles Community would spend one hour a month contributing to the Fourth Dynamic, this city would be Clear very fast."

Carrie and her group make regular visits to a growing number of organizations in Los Angeles including several convalescent homes, a large elementary school, and hospitals. The results of applying basic LRH technology have been quite spectacular to Carrie and her team. To the non-Scientologists who watch and participate, the results are miraculous.

"We're doing monthly events at one of the biggest elementary schools in Los Angeles. We've been asked to do them weekly. The kids enjoy so much to be controlled because teachers fail to control them. We say to the kids, ok let's see how quiet we can get it. Now second graders—to get them to be quiet within sixty to ninety seconds is a miracle. Teachers just can't believe what they see—they just love it."

At one convalescent home, where Carrie did an event, some basic processing brought one woman out of a catatonic state. At another, after group processing, a person began talking who had not talked to anyone at the

home for years.

Carrie credits her reach into the society in part to her ASHO Internship. "I have a tremendous certainty that if I apply the tech I will get results. I have a lot of guts and that comes from certainty and certainty comes from applying the tech and seeing that it works and you learn that on the internships.

"I feel like I owe Ron a lot for putting those internships there and this is one of the ways that I can flow it back to him."

making me a better auditor. I know the tech is mine and will remain so forever. I feel the internships have changed my life, they are the final step in moving from mystery to knowingness. I've seen pc's change before my eyes with just the running of what I thought were 'mild processes'. It certainly has given me stable wins. I would recommend that anyone, who has completed a course and not done the internship, do the internship now, it really increases your certainty, and it's a good gradient."

John Kramer listens intently to one of Ron's taped lectures on the Saint Hill Special Briefing Course.

## Retired Business Executive Doing Training at ASHO Day

Cheerful, articulate, Class VI, OT John Kramer, is now on his internships at ASHO. He was involved in many aspects of the business world before he retired. "The last job that I was employed in, I was president of an oil company," he says. He quit that job to go into business for himself in real estate, insurance, and a number of other successful enterprises.

Now looking forward to a second career in Scientology, John says this, "The Briefing Course has given me the exact gradient I needed. It's almost like Ron knew about my coming along. He did not assume that I knew anything or could do anything and therefore started on Day One with the Basics, which is what makes Scientology work. Contrary to what I had heard, it was not hard, and it didn't take too long. The new check sheets are laid out in a gradient that is easy to follow. I gladly and truthfully recommend the Briefing Course to all who qualify, especially to those intending to do the OT Levels. I feel the knowledge of the development and the proper standard application of the tech will ensure their maximum gain from the OT Levels."

"Doing an internship after the course is like really completing the course. My auditing skill and attitude towards auditing have both improved on the internship. Doing it here at ASHO—"the home of standard tech", is an all out plus! The tech quality and services are the way I believe Ron wants it to be. No stops, no barriers, just 'A' to 'B' with the thrust toward

## Class VIII Auditor Wins National Recognition as Runner

ASHO trained Class VIII Jeanie Chromoy recently won mention in *Runner's World* magazine for taking top place in her division at the recent Master's Pan American Games. Unable to run more than a few steps when she started the Sweat Program three years ago, Jeanie has used Scientology to build up her skill and ability as a runner to the point where she now runs several miles a day and now owns twenty medals and trophies and regularly places first or second in the long distance races she enters.

In addition to applying Scientology technology on herself, in her running, Jeanie finds runners very receptive to application of Scientology. One runner she knows was having serious difficulties to the point he was afraid he might have to give up running. He was pleasantly surprised when the difficulty completely disappeared after one touch assist! Jeanie often uses touch assists to help fellow runners.

Jeanie applies the tech in many areas of her life: "The Class VIII has as one of his main purposes to see that the tech is applied at every level—that was a big cognition for me. Anyone who is a Scientologist knows a lot if they only would apply it! Since I've been a Class VIII I always validate very highly. I run into somebody who knows just a little bit of tech and is applying it standardly I just validate the hell out of it because these are the

people that keep Scientology going—that keep Scientology working."

In addition to assists for friends, fellow runners, fellow workers and neighbors Jeanie has applied her knowledge of Scientology to raising her daughter. "Of course she's basically good and it's easy—putting in ethics and applying a little tech allows a being to be themselves, whereas if you allow a person to be banky or don't handle that bank, then the bank gets stronger, whereas you can make the being stronger. You have a chance if you're trained because you know how to handle a being and so she's great. I think she's special anyway and a total delight."

Jeanie has also used her knowledge of the tech to oversee her daughter's education and makes regular visits to her school (which of course is run on LRH tech).

Jeanie plans to do her internships soon as ASHO—"I think internships are invaluable. I really felt when I finished my Dianetic Internship that if Ron wanted a session he could come in and I could say 'have a seat sir', and I could give him a decent session that even Ron would like!"

Back from morning run Jeanie Chromoy shows off some of her running trophies.

## ASHO Grad Works on LRH Tech Films

ASHO-trained and interned Class VI C/S Bob Waldmann is one of a number of ASHO-trained people to work on the LRH tech films.

Bob is in charge of all actors, acting, casting, and of seeing that the staff at Golden Era Studios do their actors course. "I use LRH tech to see to it that actors are ready to play their parts. Everyone at Gold is an actor." Bob helps ensure that the tech portrayed in the films is standard. "While shooting the tech films," Bob relates, "it is part of my hat to make sure that on any process or procedure that all the original LRH data on how that process is run is included in our portrayal on the film. It's incredible what advices and tips there are in the original materials on

# FOUND THE WORLD

running processes."

Bob did his Briefing Course and Internship and VI C/S Course at ASHO. "ASHO training made me so much more stable as a technical terminal I was able to return to my org (this was in 1974) and hold C/S for both Day and Foundation Orgs for nine months after returning and was able to C/S with certainty. ASHO training really put my tech hat on. At ASHO I saw a technical atmosphere the likes of what hadn't seen before. It was easy to become part of that team—that result is really gotten on the Internships."

# ASHO NEWS—

The Continental Technical Training Corps Supervisor calls roll after a break.

## CLASS IV ORG NEWS— Celebrity Center Los Angeles Moves to New Home

Celebrity Centre has expanded into its new home at 5930 Franklin Street, Hollywood, California. This expansion into more spacious and luxurious surroundings is a win for artists, professionals, and all of Scientology as well as for society at large.

This move is what both Yvonne Jentzsch and L. Ron Hubbard have wanted for CC and marks a giant stride towards the clearing of this planet. Over the years Celebrity Centre has expanded from a small office into the elegant distraction-free environment at the Manor. Renovation of all major service delivery areas have been completed, creating a refined atmosphere which enhances both Training and Processing.

Behind this historic expansion into new quarters is

# ASHO Hosts Continental Technical Training Corps

Staff from all over Western United States and Mexico are coming to ASHO for intensive training through their Class IV Internships and beyond. Students are quickly routed in and onto course where they study an intensive 8:30 AM to 11:30 PM schedule to get back to their orgs and preclears as top notch auditors and C/Ss fast.

Three weeks after opening the Continental TTC at ASHO, there are already 22 enthusiastic students on course. Two hundred are expected within two months.

ASHO trained auditors and C/Ss have long been stable terminals in orgs and missions across the Americas. With the fast lines of the Continental Technical Training Corps, ASHO Grads will soon be ushering a new era of high technical standards and good service!

## Students on the Continental Tech Training Corps Give Their Wins

"Being on the Continental Tech Training Corps is a continuous win. A group like this is a great experience. The morale is high. The production is high. I'm doing things I had no idea would be so much fun."

"Everyone shares their wins and you get to see others as they're winning."

"The best thing that happened to me yet and soon I'll be auditing!"

"This is the best training I've ever had. You don't even have butterflies when you get in the chair and ask the pc to 'Pick up the cans.' You know what you are doing and if you mess up you can be assured that you will be corrected so you don't mess up again. I highly validate the ASHO Supervisors for their spot on supervision." —J.J.

CCLA's 100% Standard delivery of the Technologies of Dianetics and Scientology developed by the Founder, L. Ron Hubbard.

With key administration positions manned by FEBC Flag trained graduates, the service lines at CC are very smooth for Celebrity Center's public—the artist and professional. Whether it's the new Tech Films, the Sunshine Rundown, or the Solo Auditors Course Part One, CC is on top of getting these new break-throughs to its public, as well as all other Class IV org services. Currently, expansion is still occurring at CC. Eleven new Tech and Qual personnel having been added recently and five more Tech terminals due back from Flag training this month.

The Manor Hotel for Scientologists still occupies several floors of the Manor and still offers its fine accommodations for Scientologists coming to Los Angeles to take their services.

CC is now only minutes away from ASHO. The Church provides round-trip bus transportation from CC and the Manor to ASHO several times a day.

The fabulous, Grand Opening night celebration at the Celebrity Centre's new home featured Diana Hubbard Horwich at the piano under the stars on the spacious new grounds. Many other top Scientology Celebrities also performed.

The Hubbard E-Meter is a religious artifact developed for the exclusive use of ordained Ministers and theological students who are trained in its use in Church ministrations. It is not intended for and is forbidden by the Church to be used in any medical or physical treatment or the diagnosis, treatment or prevention of any disease. By itself it does nothing and is strictly not to be employed for medical or scientific purposes. Its purpose is to assist the Minister to locate in his parishioner areas of travail so that he can assist in the relief of spiritual suffering. The existence and use of the E-Meter is sanctioned by law, and the copying of it or attempts by unqualified persons, doctors, scientists, psychologists, or psychiatrists, to obtain or use one are actionable under law in the United States. To obtain an E-Meter one must be a sincerely enrolled student of the Church of Scientology or a qualified Minister of that Church and must undertake as well to become wholly skilled in its purpose and use. **ACADEMY LEVELS:** (see levels) **ARC:** a word from the initial letters of Affinity, Reality, Communication which together equate to Understanding. **ARC STRAIGHTWIRE RELEASE:** Freedom from deterioration has hope, knows he/she won't get any worse. **ASSESSMENT:** trying to locate something to audit. **AUDITING:** the application of Scientology processes and procedures to someone by a trained auditor. **AUDITOR:** one who has been trained in the technology of Scientology, the person whose job it is to ask the person to look, and get him to do so. The word auditor is used because it means one who listens, and a Scientology auditor does listen. **BOOK ONE:** "Book One" Dianetics: The Modern Science of Mental Health. The book written in 1950 by L. Ron Hubbard. It gives the entire theory and use of Dianetics. **BRIDGE:** the route to Clear, which we call the Classification, Gradation and Awareness Chart. **CASE:** the whole sum of past by-passed charge. **CLASS O:** a Class O auditor. This level teaches about communication. **CLASS IV:** a Class IV auditor. A graduate of auditor training levels O through 4. **CLASS VI:** a graduate of the Saint Hill Special Briefing Course, as well as Class VIII procedures, all case setup actions, all processes and corrective actions, as well as the Class VIII auditing. **CLASS IX:** the Class IX course contains data, concerning advanced procedures and developments since Class VIII. **CLEAR:** a thetan who can be at cause knowingly and at will over matter, energy, space and time as regards the first dynamic (survival for self). **C/S:** case supervisor, that person in a Scientology Church who gives instructions regarding, and supervises the auditing of preclears. **DATA SERIES:** a series of policy letters written by L. Ron Hubbard which deal with logic. **DCS:** DIANETIC CLEAR SPECIAL INTENSIVE, a procedure developed so that those who did achieve Dianetic Clear could get it properly acknowledged and attain a full resurgence of the state. **DEPT 11:** the department of training. **DEPT 14:** the department of personnel enhancement. **DIANETICS:** DIA (Greek) through, NOUS (Greek) soul. WHAT THE SOUL IS DOING TO THE BODY. **DIV IV:** the technical division. **DYNAMICS:** there could be said to be eight urges (drives, impulses) in life. These we call dynamics. **E-METER:** the Hubbard Electrodermal is a religious artifact used in the Church confessional. It, in itself, does nothing and is used by ministers only, to assist parishioners in locating areas of spiritual distress or travail. **FEBC:** Flag Executive Briefing Course. **FLAG:** the center for all international org management. **FOURTH DYNAMIC:** the urge toward existence as mankind. **F/N:** a remote manifestation of the E-meter which indicates the preclear has reached the end point of the process being run. **GO:** the Guardian's Office of the Church of Scientology. **GRAD:** graduate. **GRADE 0:** (see level). **HAPPINESS RUNDOWN:** HRD: the object of the rundown is to obtain an end phenomenon of realization that one really is on the Way to Happiness. **HQS:** HUBBARD GUIDANCE CENTER, that department of a Scientology Church which delivers auditing. **HPEI:** Hubbard Personal Ethics and Integrity Course. **HUBBARD KEY TO LIFE:** this course is designed to handle the out-of-commonness that currently exists in this society. **HST:** Hubbard Specialist of Standard Tech, Class VIII Case Supervisor. **INTERIORIZATION RUNDOWN:** the Interiorization Rundown is a remedy designed to permit the pc to be further audited after he has gone exterior. **LEVELS:** grade and level are the same thing but when one has a grade one is a pc and when one has a level one is studying its data. "that body of Scientology data for that point of progress of the individual." **LIFE REPAIR:** an auditing action that handles life areas. **LRI:** L. Ron Hubbard. **MCSC:** Mini Course Supervisor Course. **NARCONON:** a drug rehabilitation program for the redemption of druggies in or out of prisons. **NED:** NEW ERA DIANETICS, a refinement of all previous Dianetic techniques from 1950 up to present time as well as the development of new techniques giving much faster results and far higher gain per hour of auditing. **OE:** Organization Executive Course. **OT:** OPERATING THETAN, a being at cause over matter, energy, space, time, form and life. A Clear who has been reacquainted with his capabilities. **PRECLEAR (pc):** a person who, through Scientology processing, is finding out more about himself and life. **PROCESSING:** "auditing". **PTS:** POTENTIAL TROUBLE SOURCE, which means a person connected to a suppressive person. **PURIFICATION RUNDOWN:** RUNDOWN: RD, a series of steps which are auditing actions and processes designed to handle a specific aspect of a case and which have a known end phenomena. **SCIENTOLOGY:** THE STUDY AND HANDLING OF THE SPIRIT IN RELATIONSHIP TO ITSELF, UNIVERSES AND OTHER LIFE. An applied philosophy designed and developed to make the able more able. **CS-1:** purpose: to give pcs new to Dianetics or Scientology and to give previously audited pcs as needed, the necessary data on basics and auditing procedure so that the understands and is able and willing to be audited successfully. **S.H.S.B.C., B.C.:** was begun to do two things: (1) to study and resolve training and education; (2) to assist people who wanted to perfect their Scientology. There has been no change in these purposes. The first is succeeding very well. The second is achieving world-wide recognition through people who have graduated the SHSBC. The current SHSBC checklist is divided into six parts designated by the letters A to F. **SECOND DYNAMIC:** the urge toward existence as a sexual activity. This dynamic actually has two divisions, the sexual act itself and the family unit, including the rearing of children. **SMI:** SCIENTOLOGY MISSIONS INTERNATIONAL. **SOLO AUDITOR COURSE:** teaches a person to do solo auditing preparatory to the person auditing himself on upper level processes. **SUNSHINE RUNDOWN:** a bright new rundown which adds extra shine to the State of Clear. **SP: SUPPRESSIVE PERSON:** a person with certain behavior characteristics and who suppresses other people in his vicinity and those other people, when he suppresses them, become PTS or potential trouble sources. **SURVIVAL RUNDOWN:** the rundown that gets a person, as a thetan, better aware of his body and his physical surroundings, in better communication with these things and in better control of them. **THETAN:** the person himself—not his body or his name, the physical universe, his mind or anything else that which is aware of being aware, the identity which is the individual. The thetan is most familiar to one and all as you. **TR:** Training regimen or routine. Often referred to as a training drill. **VHM:** VOLUNTEER MINISTER'S HANDBOOK. **WIS:** WORLD INSTITUTE OF SCIENTOLOGY ENTERPRISES. **WOG:** a common ordinary run-of-the-mill garden-variety humanoid.

## Successful ASHO Internship Graduates Tell Their Wins

Back to ASHO for more training, Class VIII Gerry Chromoy is doing the Happiness Rundown Case Supervisor's Course.

## Field Auditor Uses His Training to Help Others Flourish and Prosper

Interned ASHO Class VIII, Gerry Chromoy, successful field auditor, uses the understanding and abilities gained through his training and internships at ASHO to help others get up the Bridge and succeed in life. "I've had thirteen years experience," Gerry says, "there have been quite a few remarkable successes, that has been quite a usual thing."

"For instance I had one person who hated his job and wanted to be more outside, so he went from a public relations field to wood working to foreman of a crew to his own business, and he's gone national now. He's putting his construction crew to work in different parts of the country. He's building different companies and he started by hating his current job and not knowing what to do about it."

"I've done the Debug Course and Internship. It's a

major course I have to use. For instance this fellow wanted to get onto Solo and he had no money at all. We found a way to get his Grades and we found a way to get him over to the AQ and then we found a way to get his OT Levels. He's on his OT Levels now.

"I use the checklist on how to debug almost all the time. Everything that comes along, I use that material."

Gerry is now on the HRD C/S Course at ASHO. Having trained at many places in the country, he expresses how he feels about training and ASHO training in particular. "The training here is remarkably good. There's a clean relationship between supervisor, the C/Ss and administration terminals. It's very good to be on course because you come out without any stops. It's a real good service." Gerry is particularly happy with his ASHO internships. "The internships are really what brightens one up to full professionalism. The C/Ss here are—I can't tell you how on top they are. The ASHO C/Ss are just tremendous. A person comes out a permanent professional auditor. The internships are fairly fast so it's no particular problem and it's not an engram. I would say there's something missing if a person has done a course and not done an internship. It's well worth what you pay for it and the time you invest."

## Auditor Does Dissemination with the Tech

Six years a field auditor, Class VIII HSST, Reed Statkin runs a busy field auditing group from an upstairs 6-room office suite. He and his group stay connected up with

Class VIII Auditor Reed Statkin takes a moment off from a busy day to pose for a photograph.

ASHO, where Reed has done all of his internships. "I feel that ASHO has been consistent. It's the best I've run into. I use the C/S lines if I ever run into trouble. They've been around for a long time. They know the tech—they know how to make people get trained properly. They're the best tech team."

# FOCUS ON SUCCESS

Reed does a good deal of auditing of new Scientologists and he feels his internships have been important for that—the experience of internships make the auditing of people much easier. This is the future of Scientology—being able to handle new people effectively. On the front lines of disseminating Scientology to new people, one in a sense is auditing constantly. The same principles apply on a standardly done dissemination cycle as apply in a standard auditing session. The certainty one gets in handling cases on the internships is vital when contacting the public and making Scientology known to them.

"Interning was the turning point for me as an auditor—particularly under ASHO's Case Supervisors. I can honestly say I felt I could handle any case after putting in the hours on the Internships, whereas before, I mostly felt that I could audit someone as long as nothing odd came up."

"The internships produce discipline and confidence, and of course these help across the Dynamics. Also familiarity with the Tech gives you instant accessibility to the data, and the ability it takes to handle all kinds of situations."

"If a person plans to audit, or if they plan to be able to use Scientology technology in their life, the internship is the testing center to make sure that the tech you've learned, you've really got. It's the application side of the deal, and if you've not got that under your belt you're not hitting the full potential you can in applying it."

"The internship is a checklist. How it's administered is the key thing. ASHO knows how to administer the internship to get results."

## Senior Case Supervisor Backs Internships

HSST Yvonne Prince, a graduate of the ASHO Internship, has been Senior Case Supervisor at a large mission for the past year, a job she has enjoyed. "I love auditing and I love C/Sing. I've had a lot of pcs who continued up the Grade Chart and went on to their OT Levels, and those pcs are people that I'm in comm with. The thing that I really really like about working with the tech is that the people you handle are your friends for life. It makes a really really special relationship and I really like that. That's something that I don't think you experience any other way other than helping someone the way that you can when you audit or C/S for them."

Training—and that includes her ASHO internships—has been a vital part of the Bridge to Yvonne. "I've had a majority of my gains on training cycles. I can't imagine what it would be like to be an OT without training. It would be almost like the difference between being a wog and being Clear, being an OT who is untrained and being an OT who is trained. And I consider the internship half of the training cycle. I personally would never do the training cycle without also doing the internship. I did that once at the beginning of my training and I would definitely never do a course again without also doing the internship—it's what completes the cycle."

"I don't consider someone professional until they've actually done an internship. As far as doing C/S internships—it's just like auditing internships—the cycle's not complete until you actually do it and become a pro."

## PREPARED LISTS WHEN YOU REALLY NEED THEM

Make sure you really get results on your pcs! Don't be caught not knowing what to do because you're missing a prepared list in session!

The Prepared List Master Package is a bright idea by Ron to help auditors keep the prepared lists they need in session handy and ready to use. The package has over 50 different prepared lists separated by printed index dividers for fast and easy location, all the tech on prepared lists and when to use them contained in a ring binder, and a special mini-file for the most frequently used lists so an auditor can "travel light" between locations. All of this comes in a sturdy case made of the same material and colors as your Mark VI E-Meter. Get your Prepared List Master Package—the exact list you need at your fingertips when you need it!

## NEW RUNDOWN FOR CLEARS!

Ron has just released the Sunshine Rundown for Clears!

The Sunshine Rundown is a faster, easier, better gradient to the upper part of the Bridge.

Here's a description of the Rundown in Ron's own words:

"The Sunshine Rundown is a bright new rundown which adds extra shine to the State of Clear."

"The Sunshine Rundown gives the Clear a fresh, new outlook and really orients him to present time as a Clear."

"The rundown is done solo, by the Clear himself, and is usually completed in one session. Solo auditor training is not needed in order to audit the Sunshine Rundown. The confidential Sunshine Rundown instructions are easily followed, even by those with no previous tech training."

"New Clears, already shining and bright, will come out shinier and brighter still—and ready to continue up the Bridge to OT. Their next step is the Solo Auditors Course."
